2022 Tax Return Login Procedures

1. Create Project in Practice.
2. Select the type of Project (1040FED, 990FED, 1041FED, 1065FED, 1120C, 1120S, 1040X, 1120X)
3. Put the Targeted Start Date & Complete Date.
4. Input the Received date.
5. Select the Engagement level.
6. Assign Responsible Party & Assigned Staff.
7. Select Project Tracking
    a. If not documents in yet, select TR00
    b. When documents come in via mail/drop off, etc (no portal) front desk logins in client, creates routing sheet and assigns to PHLAdmin and changes tracking to **TR02** ready to scan
    c. When documents come in via portal, portal admin collects documents, puts in file cabinet and then assigns to front desk and changes tracking **TR01** to ready to be logged in
8. Non-Portal (step7b) admin scans in documents to file cabinet, OCRs information, then assigns to preparer or data entry and changes tracking to **TR03** Info scanned, ready for preparation
9. Once the preparer receives and starts preparation project tracking is changed to **TR04** Started Preparation
    a. If additional documentation is needed- tracking is changed to **TR05** Waiting on Additional information from clients and the information that is needed has to be documented in the projects (ie specific forms, numbers, etc.) For example, waiting on AT&T W-2
10. If no additional documents are needed and preparation/data entry is done before the return is sent to the review the preparation checklist is filled out in entirety and embedded in file cabinet under the Tax 2022 folder to the client
11. The return is assigned to the reviewer and project tracking is changed to **TR06** Ready for initial review
12. If in the review there are changes that need to be made to return and it can be sent back to the data entry/preparer to change or can be changed by the reviewer based on preference. If sent back to the preparer the project tracking is changed to **TR07** Initial review completed, back in preparation
13. Once changes are made, the return is assigned back to the reviewer and project tracking is changed to **TR08** Ready for Final Review
    a. The reviewer reviews and completes the reviewer section of the preparation checklist

14. Once the return is finalized, print the return to FC, create efile, and print to paper (if necessary) and put the folder in the processing room and assign to PHL Admin and project tracking is changed to **TR10** Ready to be processed
15. The return is processed
    a. Non Portal
        i. The return is assigned to Lana and Kristen to call the client and project tracking is changed to **TR11** Client needs contacted for pickup
        ii. After nonportal return is contacted then project tracking is changed to **TR12** client contacted and project notes are updated and initialed
        iii. After client is called, the project is assigned to Rosana and project tracking is changed to **TR13** ready to be invoiced
    b. Portal
        i. The return is assigned to Nadyne and she puts the return/ actionable items if full portal into the clients portal
            1. If full portal, Nadyne contacts the client via and changes the project tracking to **TR13** ready to be invoiced and assigns to Rosana
            2. If Hybrid, Nadyne changes the project tracking to **TR11** client needs contacted for pickup and assigns to Kristen and Lana
            3. Once Hybrid client is contacted, the project is assigned to Rosana and project tracking is changed to Ready to Invoice
16. After Rosana invoices, the project is assigned to Lorena and project tracking is changed to **TR14** Waiting For Client Signature.
17. Office receives signed 8879, Tracking is changed to TR22- Ready for Efiling-Received Signed 8879. Assigned is Lorena
18. Once efiled, tracking is updated to TR15- Efiled, Waiting on Acceptance.
19. When efile results come back, tracking is updated to either Completed (causing the project to close) if efiles has been accepted or TR16- Efile Rejected- Needs to be fixed.
20. If efile rejects, tracking is updated & project is then re-assigned to appropriate preparer to address the rejection notification.
21. Once preparer fixes rejection and client does not need to re-sign an 8879, Tracking is changed to TR18- Ready to be re-efiled after rejection fixed & Assigned to Lorena for efiling.
    a. If return now needs to be paper filed, after return has been re-printed, preparer changes tracking to TR17- Ready to be Paper filed after rejection & assigned to PHL Admin for processing & calling client for pickup/mailing.

Make sure to select the right Project for the correct tax return type (1040, 1120S, 1120C, 1065, 990)

The date can be a few days out from when they sent in their tax documents.

Should be the deadline for the type of the return or if we have all documents, roughly 2- 2.5wks from received date.

If a client sent 2022 Tax Documents, this box must have date received. Even if we do not have all yet.

If they haven't sent us all, make note in the Notes section of Project.

Select Engagement level. If only Unknown/Default, select that option.

Reference the excel to find who is Responsible for the Client.

Input Tracking. Change tracking as you move it to a new assigned staff member.

If you are unsure which tracking you should select, ask.

All Tax Return tracking start with TR

Depending on where the Project is at in the process, assign to Admin or reference the excel to find who is Assigned to the Client.

Select the correct Ultra Tax Year.

Put notes here. This is your paper trail & preparer's place to reference. If you printed docs/excel/QB to a location, client told you something, etc make note here.

Format should be:

2/2/23: Notes. Staff Initials
